China is a great country with the largest population in the world. In order to solve the population problem, our government carried out one-child policy(政策) before. When it is carried out for some time, many people not only see its advantages but also disadvantages.

From 2016, two-child policy is put into effect. In my opinion, two-child policy is good. First of all, two-child policy is the gift for some only child. For some families, maybe the parents are only child and they can also have only child. Besides the loneliness of their child, when their child grows up and they grow older, their child marry an only child girl, the burden(负担) on their child and his wife is too heavy. Their child and his wife have to take care of two couples. Usually, a young couple looking after an old couple is a little difficult. But if their parents have two children, they can share the burden of taking care of their parents. It would be much better. Secondly, two child policy can guarantee(保证) the number of Chinese population.

Would you like to live in a city where buildings turn the lights off for you, and self-driving cars will find the nearest parking space themselves? Although it might sound a little far from you, living in a "smart" city like this could happen sooner than you think.

Great changes have taken place in towns that we have lived in for centuries, while completely new cities are being built. One such place is the city of Songdo. About 75% of the world's population will live in cities by 2050, so cities will need to be more modern to deal with the coming problems. "Making cities smarter is one way out, and I think this will in turn make cities greener," said Dan Hill, head of a research company.

I found a short line with just one person ahead of me. It was an elderly woman, and she was paying for her things with only change. It took a long time. After a whole day at work, I began to lose patience.

But then I watched the young clerk(职员). He helped her count her change, ever so tenderly (体贴地) taking it from her shaking hands. I listened to him repeatedly say to her, "Yes, madam." When she asked the clerk if she had enough money to buy a bag, he told her she did. Then he went two lines over to get one for her. Never once did this clerk get annoyed(生气的) or roll (滚动) his eyes. He was patient and kind.

As I was watching him, I saw Eloise was, too. I realized that my daughter was learning an important lesson from a complete stranger.

After the woman was finished, the clerk began ringing up my things and thanked me for my patience. I thanked him, too. I found the manager and told him about the clerk's kindness and patience.
