Dear Zhou Hui,

As time goes by, we have been friends for nearly three years. I want to thank you --- my best friend.

At the beginning of Grade Seven, I didn' t listen to what the teacher said carefully. What was worse, I even made noise in class. What I did affected other students seriously. After school, I didn' t do my homework at home. I spent most of my time playing computer games.

During the three years, you always helped me with my study in your spare time. You tried your best to make me interested in study.

Now, I know I must work hard. Recently, I have a goal. I'm looking forward to going to an ideal senior high school.

I will pass the love to help those students who are like me.

Yours,
Li Ming
