People usually think volunteering is just for adults and it seems hard for students like us. But it is totally different in Canada. The government encourages people of any age to volunteer in public and make contributions (贡献) to the whole society. Therefore, if students want to graduate from high school, 30 hours of volunteering is required. If students want to get into a good university, it helps if they contribute a lot to society. Volunteering is an important factor (因素) that universities will take into consideration.

What is more, there are volunteer opportunities everywhere. People can find information about how to volunteer posted in the library or on the internet. It includes many different jobs, such as wrapping (包装) gifts in a shopping mall, taking care of small kids or cleaning up a church. Students can choose what they want to do and register (注册) online.

I got my first volunteering job in New Westminster Museum every Sunday from 9:30 am to 11:30 am. My job is to proofread the documents (校对文件) on a laptop and correct mistakes. The museum is about the history of the Irving Family, a historically important family in New Westminster. At first, I was nervous to communicate with others. But as time passed I became more open. During volunteering, I not only learned how to work with other volunteers, but also learned a lot of history about New Westminster.

As a volunteer, I am proud of myself. I enjoy doing my job and helping others.

Green is an important color in nature. It is the color of grass and the leaves on trees. It is also the color of most growing plants.

Sometimes, the word green means young, fresh and growing. Sometimes, it describes something that is not yet ripe or finished.

For example, a greenhorn is someone who has no experience, who is new to a situation. In the fifteenth century, a greenhorn referred to a young cow or ox whose horns (角) had not yet developed. A

century or so later, a greenhorn was for a soldier who had not yet had any experience in battle. By the eighteenth century, a greenhorn had the meaning it has today - a person who is new in a job.

Someone who has the ability to grow plants well is said to have a green thumb. The expression comes from the early nineteen hundreds. A person with a green thumb seems to have a magic touch that makes plants grow quickly and well. You might say that the woman next door has a green thumb if her garden continues to grow long after your plants have died.

The Green Revolution is the name given some years ago to the development of new kinds of rice and other grains. The new plants produced much larger crops. The Green Revolution was the result of hard work by agricultural scientists who had green thumbs.

七 任务型阅读

In 1901, an Austrian scientist, discovered that there are four types of blood. These four blood types were named A, B, AB, and O. People have one of these four types.

Blood type O is the most common around the world. Blood type A is the second most common, and type AB is the least common. If people with type A blood are given type B blood, or people with type B blood are given type A blood, they will probably die.

In 1927, a Japanese doctor found out that people with different blood types also had different personalities. He said that people with type A blood are usually calm and serious; people with type B blood are curious, cheerful, and outgoing; people with type O blood are generous and honest; while those with type AB blood are often caring and talented.

More recently, a doctor in the United States wrote a book that links blood types and what people eat. For example, his book suggests people with type O blood should eat more meat and less bread. A diet for people with type A blood includes more vegetables. His book, *Eat Right for Your type*, has been a hit with people who want to lose weight. However, Dr. Peter D'Adamo believes that eating food that matches a person's blood type can do more than help them lose weight. He thinks it will make the person healthier in other ways, too.

71. People _____ have different personalities.

72. People with Type A blood should eat _____.

73. People with _____ are caring and talented

74. People with Type O blood are _____

75. If people eat food that matches a person's blood type, they will _____
